Dear Applicant

## **BUILDING CONTROL SURVEYOR**

Thank you for your interest in the position of Building Control Surveyor at Waverley.

The current political and economic climate is one thing, the current Building Control environment is another! In these turbulent times we are working to provide a professional service for those who continue to improve and develop buildings in the Waverley Borough (and beyond with the Partnership schemes.)

We offer our clients a professional, efficient service helping them to keep their projects on track with robust communication in a solution driven environment. You will work with builders, architects and developers to demonstrate how we can make a difference, adding value to their projects and becoming their provider of choice.

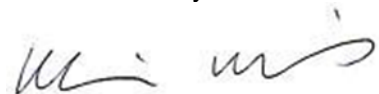

We are strengthening the team by recruiting a skilled and progressive Building Control Surveyor, whether you bring a wealth of experience or are at the start of your career. Are you commercially minded and able to deliver a robust building control service to help maximise our business? Focused on the service, you will manage and develop relationships, creating new opportunities to enable us to continue to develop and reinvest in our service.

In return for your efforts, we offer a rewarding career with competitive pay and excellent benefits including a great pension, car allowance, generous annual leave and flexitime.

This is a great opportunity to be part of the re-shaping of Local Authority Building Control and our exciting journey of change.

We look forward very much to hearing from you.

Yours sincerely

Kelvin Mills  
Head of Commercial Services
