

# Role profile

Here's more about the job!

<b>Role/s</b>	(all listed roles, incl. Night/Bank versions) Care Assistant	<b>Date Prepared</b>	January 2019
---------------	---	----------------------	--------------

## Your Team

- We provide Adult Social Care for older people, young people, and adults with learning disabilities in various locations across the area. We know how to have conversations with people that explore what matters most to them- how they can achieve their goals, how they live, how they manage their health, keep safe and be part of communities.

## Your Customers

- older people, young people, adults with LD, and their families
- Social workers and other internal partners
- 3rd party suppliers and contractors
- GPs, local medical care providers and the NHS / local hospitals

## Your Role

- to give complete personal care in accordance with the needs of the customer as assessed and planned, and to assist with activities of daily living
- To help create and maintain a supportive, secure and friendly environment where customers can achieve maximum independence and choice, and accessing the wider community
- Where applicable be involved in assessing customer's needs and assisting with care planning to meet those needs.
- Dispense medication to customers after training

## Health and Safety

- Manual handling activities.
- Regular exposure to mental health pressures and demands.
- Risk of verbal abuse.
- Risk of physical assault.
- Exposure to infection.
- Working alone.

## Work Pattern

- Shift working.

## Work Related Travel

- Limited.
